## Cerabase B&W · highlights

MADE IN GERMANY

Präzision und Detailtreue sind die Markenzeichen der traditionsreichen 800er-Serie von Bowers & Wilkins. Diese Eigenschaften in Kombination mit Homogenität und Dynamik vermag Cerabase in der speziellen B&W-Version noch zu steigern und zu verfeinern.

- optimale Integration in den Sockel durch spezielle Adapterplatte
- geringe Bauhöhe für dezentes, aber wirkungsvolles Klangtuning

|                |                                                                                                                                                              |

| Besonderheiten | passend für: B&W 800D, 801D, 802D,<br>800 Diamond, 802 Diamond<br><br>stufenlos höhenjustierbar, anschraubbar,<br>Lieferung in hochwertiger<br>Holzschatulle |

Precision and detail fidelity are the hallmarks of the renowned 800 series from Bowers & Wilkins. In combination with coherence and dynamics these attributes are raised by the special Cerabase B&W version to an impressive and refined level.

- optimal integration in the plinth by means of a special adapter plate
- low installation height allows for subtle, but efficient sound tuning

|               |                                                                                                                                                         |
